Chair of Governors

We are aware that the General Data Protection Regulations (GDPR) will entirely replace the current Data Protection Act (DPA) by making radical changes to many existing data protection rules and regulations that schools, academies and other educational establishments adhere to under the DPA. The principal aim of the GDPR is to strengthen and unify the safety and security of all data held within an organisation.

We have the duty to ensure that we comply with this new regulation by considering the impact that the GDPR will have on this school and to ensure new policies and procedures are in place before the GDPR comes into effect.

We believe that we comply with the current DPA and we realise that many of the GDPR's main concepts and principles are much the same as those in the DPA but we are aware that there are new elements, significant improvements and a new accountability that we need to address for the first time. We understand that under the GDPR:

- data management is strengthened and unified;
- it will become illegal not to have a formal contract or service level agreement with a chosen data processor;
- the data processor must be GDPR compliant;
- there will be higher penalties for non-compliance with the GDPR;
- data breaches must be reported within 72 hours;
- individuals have greater control over their personal data.

We are committed to the protection of all personal and sensitive data for which we hold responsibility as the Data Controller. We believe the handling of such data is in line with the data protection principles and that access to such data does not breach the rights of the individuals to who it relates.

We acknowledge the GDPR's definition of personal data as 'meaning any information relating to an identifiable person who can be directly or indirectly identified in particular by reference to an identifier' such as name, identification number, location data or online identifier. It applies to both automated personal data and to manual filing systems where personal data are accessible according to specific criteria.

At all times we ensure the principles of the DPA are applied and that data is:

- processed lawfully;
- obtained and processed for specific and lawful purposes;

- sufficient, appropriate and not excessive in relation to the precise purpose;
- accurate and up to date;
- not kept for a great length of time;
- processed in agreement with the individual's legal rights;
- protected against unlawful processing, accidental loss, destruction or damage;
- not transferred outside the EU unless the rights and freedom of the individual is protected.

We have the responsibility to ensure that all changes to data protection legislation will be monitored and implemented in order to remain compliant with all requirements. All school personnel will attend training in order to be made aware of data protection policies and legal requirements.

All our data processing activities will be registered with the Information Commissioner's Office (ICO). The ICO will be notified of any changes to the type of data processing activities being undertaken and the register will be amended accordingly.

We are aware that the GDPR places greater emphasis on accountability and therefore the Data Protection Officer will keep up to date documentation of all data protection activities.

We all have a responsibility to ensure equality permeates in to all aspects of school life and that everyone is treated equally irrespective of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation. We want everyone connected with this school to feel safe, secure, valued and of equal worth.
