

On **Tuesday 26<sup>th</sup> November at 6:45pm - 7:30pm** we are running an **internet safety workshop for parents and carers**. No matter what year group your child is in and whether they own a mobile phone/tablet or not, we **strongly encourage attendance**.

**During the evening we will be focusing on:**

- **How to keep your children safe online**
- **How we can work together to minimise risks**
- **And what to do when none of the above has worked!**

Children are growing up in an environment where online risks are not always obvious. This workshop is one of, if not, **the most important session** which we will run as a school this year, we hope to see you there.
